SHEFEXIL

TREND IN OVERALL EXPORTS

India's merchandise exports during November 2018 were valued at US \$ 26.50 Billion, as compared to US \$ 26.29 Billion during November 2017. This registers a positive growth of 0.80% in dollar terms. Exports were valued Rs. 1,90,429.46Crorein November 2018 as compared to Rs. 1,70,541.01 Croreduring November 2017. Hence, in Rupee terms export increased by 11.66%. However, cumulatively, exports grew during April-November 2018-19 as compared to April-November 2017-18 by 11.58% in dollar terms and 20.40% in rupee terms. The growth may be mainly because of rupee depreciation during July and November 2018.

As compared to total exports made in October 2018 (USD 26.94 billion), exports in November 2018 (USD 26.50 billion) decreased merely by 1.63%.

TREND IN SHEFEXIL PRODUCT EXPORTS

India's export of SHEFEXIL products valued at USD 159.61million during November2018 (FY 2018-19) as against USD 153.41million during November2017 (FY 2017-18), registering positive growth of 4.05%. Cumulative export of SHEFEXIL products during April-November2018-19 also recorded a growth of 13.26% over the same period last year, by securing exports of USD 1357.51million as against USD 1198.58million during April –November2017-18.

Out of 6, 1panel recorded positive growth, in value terms. Panel, which recorded notable growth, and the growth rate, is shown below:

Vegetable Saps & Extracts 37.61%

Reasons for increase in the exports under panel Vegetable Saps & Extracts:

Under panel "Vegetable Saps and Extracts" export of product Menthol crystal has increased significantly i.e. by 46.11%, achieving export of USD 76.24 Million during Apr-Nov 2018 as compared to total export of USD 52.18 Million during Apr-Nov 2017. The export has increased in case of countries like USA, Netherland, Germany, UK, Singapore, Nigeria, Russia, Thailand, Hong Kong, Philippines, Japan, Taiwan, France etc.

- The main reason for increase in the export of Menthol crystal is high selling price and low cost of production. Menthol crystal is high priced product derived from mentha leaves.
- Menthol crystals have wide applications across food, chemical, cosmetics and Pharma applications.
- It has high demand in countries such as USA, Germany, UK, Netherland etc.
- Also, decrease in rupee value against US \$ boosted exports of this commodity. The average rate of rupee against US \$ during Apr-Nov 2017 was 64.52 and during Apr-Nov 2018 the rate was 67.21.

Reasons for decline in exports in Apr-Nov 2018

- SHEFEXIL's exports have decreased in Apr-Nov 2018 as compared Apr-Nov 2017 in panels viz. Plant and Plant portion" and "Other Vegetable Materials".
- Export of "Psyllium husk (isobgul husk)" has decreased under panel "Plant & Plant Portion" which is majorly exported product under the said panel. Export of "Psyllium husk" has decreased in the countries such as; USA, Germany, Italy, France, Netherland, Poland, Sweden, Malaysia, Thailand, Philippines, Canada, Brazil, Colombia, Korea Republic etc,
- Under panel, "Other Vegetable Materials" export of product "Cotton Linters" have decreased. Cotton linter is majorly exported commodity under the said panel. Apart from Cotton Linter export of "Bidi Wrapper Leaves" has also decreased. Export of Cotton linters have decreased in countries such as; China and Sri Lanka. Whereas, export of Bidi Wrapper Leaves has decreased in Sri Lanka.

Reasons for decline in the exports are as under:

- Decline in the production of Isabgol (psyllium husk) in the year 2018-19:

- Isabgol is majorly produced in states like Gujarat, Rajasthan and Madhya Pradesh. As per the recent article in Times of India, Isabgol production has decreased in Gujarat.

 (https://timesofindia.indiatimes.com/city/ahmedabad/isabgol-sowing-at-snails-pace/articleshow/67186048.cms)
- The production of the commodity is likely to decline by 30% in 2018-19. As per Unjha APMC, Chairman, Gaurang Patel, "isabgol sowing is expected to fall by 20% this season".
- As per the said article, Isabgol is majorly grown in Kutch and North Gujarat. Farmers' aversion to Isabgol crop in 2018-19 is due to less rain fall and lower prices of the commodity in 2017-18. It is also a risky crop and a little change in weather conditions can ruin the crop. Prices of Isabgol were lower in 2017-18 as compared to 2016-17, since, farmers did not get good price, they have moved away from Isabgol to other crops.
- Due to the above reasons production of Isabgol has decreased in 2018-19 and hence, export of the said commodity has also decreased.

- Decline in the production of Cotton crop:

As per Cotton Association of India (CAI), Arrivals/production of Cotton crop up to 31.12.2018 is 115.97 lakh bales of 170 kgs each (1971.49 Tons), whereas production of Cotton crop as on 31.12.2017 was 147.75 lakh bales of 170 kgs each (2511.75 Tons). This shows that production of Cotton crop has decreased by 31.78 lakh bales of 170 kgs each in the current period. The reason quoted by CAI for decrease in the production of Cotton crop is as under:

Quote:

"The main reason for reduction in cotton crop is that farmers have uprooted their cotton plants in about 70-80% cotton area due to moisture deficiency, due to less rain and as a result of which there is no scope for 3rd and 4th pickings."

<u>Unquote</u>

Due to lower production of Cotton crop our export of Cotton Linters has decreased in Apr-Nov 2018 as compared to Apr-Nov 2017. For more details refer this link (http://www.caionline.in)

- Reasons for decline in the exports of Bidi wrapper leaves to Sri Lanka:

- 1. Bidi wrapper leaves are widely used to prepare Bidi for smoking. The main ingredient in Bidi is Tobacco. Tobacco is wrapped in tendu leaves (bidi wrapper leaves). As per Index of Industrial Production (IIP) of Sri Lanka for the month of November 2018, production of tobacco products has decreased by 20.9% in Sri Lanka in November 2018 as compared to same period of previous year.
- 2. Sri Lanka has signed the Framework Convention on Tobacco Control (FCTC) in 2003 in order to give priority towards protecting public health and address the demand and supply of tobacco through the international best practice WHO strategies. These strategies include monitoring tobacco use and prevention policies, protecting people from tobacco smoke, offering help to quit tobacco use, warning about the dangers of tobacco use, enforcing bans on tobacco advertising, promotion and sponsorship, and raising taxes on tobacco. Due to this production of tobacco related products are lowered in Sri Lanka.
- 3. Also, majority of population is smoking cigarates in srilanka as compared to bidi. And bidi smokers are shifting towards cigarates. Majority of the beedi consumers are consuming cigarettes but most cigarettes users are not consuming bidi. Hence, bidi smokers are declining in Sri Lanka

Due to the above reasons our export of bidi wrapper leaves to Sri Lanka has decreased

Top 25 Countries of SHEFEXILProducts

- USA continues to be the top export destination for SHEFEXIL products. USA's percentage share in India's total export of SHEFEXIL products is 34.76% in Apr-Nov 2018-19.
- Other top export markets in Apr-Nov 2018-19 with their percentage share in total exports of SHEFEXIL products are (belonging to top 10 export markets)China (7.11%), Germany (5.90%),

Hong Kong (5.03%), Singapore (3.72%), Japan (2.74%), UK (2.72%), Netherlands(2.69%), Russia (2.55%) and Iran (2.29%). In other words, exports are largely concentrated in USA.

- FTA Free Trade Agreement (FTA)
- GCC Gulf Cooperation Council (GCC)
- RCEP Regional Comprehensive Economic Partnership (RCEP)
- SACU Southern African Customs Union (SACU)]
- If currency of a country depreciates, import becomes costlier against USD.
- If currency of country appreciates, import becomes cheaper against USD.
- If Indian currency is depreciating, gains of currency depreciation can be passed on to the buyer (importer). But if the importing country's currency depreciates more than Indian currency (in case of export from India) then even after passing gains due to depreciation by Indian exporter to the importer, landed cost of import still remain higher. Here, FTA helps. FTAs/PTAs/CECAs/CEPAs provide preferential treatment to Indian Origin Goods in Export market, which makes landed cost of import cheaper.
- Exporters of the SHEFEXIL's products therefore have to study their export markets in terms of currency appreciation and depreciation along with tariff preferences available under FTAs/PTAs/CECAs/CEPAs.
